Breaking down in order to rebuild
In May, we published a report on the human rights situation after the first 100 days of the current government, available on our website.

Freedom of expression
14 activities
- Engagement with community radio stations to understand their needs with regards to human rights and security.
- Accompanying Dina Meza of ASOPODEHU to a forum on the risks faced by journalists in Honduras.

Gender and diversities
146 activities
- Organising a virtual advocacy tour to the United States, together with Arcoíris and SOMOS CDC, to report on the Vicky Hernández IACHR judgment.
- Facilitating an encounter about digital security and protection with defenders from the Mesa de Acceso a la Justicia.

Land and territory
155 activities
- Observation of trials against criminalised defenders, such as the eight Guapinol River defenders and land defenders from the CNTC.
- Accompanying CEHPRODEC during visits to communities, open town hall meetings and marches in the department of Olancho.

The organisations that we accompany
- ASOPODEHU (since 2014)
- ARCOÍRIS (since 2015)
- SOMOS CDC (since 2022)
- COPINH (since 2017)
- CEHPRODEC (since 2014)
- ASODEBICOQ (since 2018)
- ARCAH (since 2022)
- CNTC (since 2018)

In 2022, we accompanied SOMOS CDC in forums and marches where the organisation demanded an end to discrimination and violence against LGTBI+ people.

In 2022, we supported ARCAH’s defence work through visits to the Loarque community, which is denouncing the contamination of the Choluteca River by a poultry company.

The State acknowledged its responsibility in the death of transgender defender Vicky Hernández. LGTBI+ organisations keep demanding progress in compliance with the IACHR Court ruling.
